

Clean right to get GREEN

Dri-Buffer

e-clean Dri-Buffer is a product of entirely new technology that provides the ultimate in floor appearance, protection and safety at the lowest cost of labor and material. It can be used to maintain any floor finish including other “green” floor finishes.

One pint treats 120,000 square feet!

Use with the companion e-clean Finish, Stripper and Floor Cleaner to have a safe, clean floor surface.

How to use:

If floor is relatively clean, it need only be dust mopped. If heavily soiled, clean first with e-clean Floor Cleaner.

Use a high speed buffing pad and burnishing machine. Apply 4 nickel size drops of e-clean Dri-Buffer onto the floor in a circular pattern. Center the buffing pad over the drops and burnish the floor over a 30-40 square foot area. Note that the more floor area you do at one time, the less product per square foot you’ll need to use.

If the floor was dirty before application, dust mop after the floor is burnished.

e-clean products are powerful solutions that are carefully formulated to give superior performance while maintaining balance with nature. e-clean products are certified safe for the environment and for the user. Clean right to get Green!
